

Essential Amino Plus

180 capsules (180 servings) • 360 capsules (360 servings)

SUGGESTED USE Consume one or more capsules three or more times daily or as directed by a health care professional. Best results are achieved by consuming **Essential Amino Plus** on an empty stomach at any of the following times: sixty minutes before meals, immediately before or after exercise, and upon waking or before going to bed at night. To determine your proper total daily intake, consider individual factors such as the quality and quantity of protein in your diet, your bodyweight, your activity level, etc. This product is most effective when used in conjunction with a high potency, comprehensive multi-vitamin-mineral supplement such as one of **ANDREW LESSMAN'S Life Rx™** formulas. **For answers to questions about the use of this product call 800.800.1200.**

Uns surpassed Purity, Quality, Integrity & Effectiveness.

ESSENTIAL AMINO PLUS™

COMPLETE PROTEIN SOURCE
ESSENTIAL & BRANCHED CHAIN AMINO ACIDS

PROCAPS
LABORATORIES

DIETARY SUPPLEMENT

Andrew Lessman's ESSENTIAL AMINO PLUS is the ultimate protein supplement containing a uniquely balanced blend of di-peptides and tri-peptides, plus free-form amino acids with an emphasis on the essential and branched chain amino acids. It is intended to compensate for the fact that most Americans consume a diet that provides inadequate amounts of high quality protein and essential amino acids. This product is designed for use by athletes, active or health conscious individuals, particularly those who are vegetarians consuming a reduced protein diet or a diet with less than ideal amounts of all the essential amino acids. It is specifically designed to improve the quality of the protein and amino acid content in your diet by emulating the amino acid composition of critical tissues and organs, such as cardiac and skeletal muscle tissues. Additionally, the quality of protein in our diet is now recognized as essential not only for the maintenance of those vital tissues, but also for the structure and function of every enzyme in your body, which are collectively responsible for all of the metabolic activities you perform. Since a chain is only as strong as its weakest link, the quality, not just the quantity of protein in your diet is decisive in maintaining optimum health and physical performance. The amino acids listed in the amino acid profile are derived from a hormone-free source of enzymatically digested casein, which is then supplemented by substantial amounts of the branched chain, essential and non-essential amino acids in their free crystalline form to achieve the ideal amino acid balance and profile. This convenient, concentrated source of amino acids offers unparalleled support during periods of intense physical activity, stress or energy demand, especially during the recovery that follows.

CONTAINS NO Yeast, corn, wheat, gluten, sodium, salt, sugar, starch, fat, cholesterol, oil, emulsifier, wax, binder, filler, excipient, lubricant, coating, diluent, flowing agent, color, flavor, sweetener or preservative.

CONTAINS NO ADDITIVES OF ANY KIND

Supplement Facts

Serving Size 1 Capsule

Amount Per Serving

L-Lysine	100 mg	†
L-Glutamic Acid	75 mg	†
L-Arginine	38 mg	†
L-Isoleucine^B	38 mg	†
L-Valine^B	38 mg	†
L-Leucine^B	38 mg	†
L-Proline	31 mg	†
L-Aspartic Acid	25 mg	†
L-Serine	17 mg	†
L-Tyrosine	16 mg	†
L-Phenylalanine	15 mg	†
L-Threonine	13 mg	†
L-Alanine	9 mg	†
L-Histidine	9 mg	†
L-Methionine	9 mg	†
L-Cystine/Cysteine	6 mg	†
L-Glycine	6 mg	†
L-Tryptophan	4 mg	†

† Daily Value not established.

Other Ingredients: Gelatin capsule.

Contains milk and soy.

Essential Amino Acids are in bold type and Branched Chain Amino Acids are marked with a B^(B).
