

Cholox + Solos

90 packets (45 servings) • 180 packets (90 servings)

PERMA-FRESH PURPLE PACKETS • MOISTURE OXYGEN UV PROTECTION

SUGGESTED USE Consume at least two packets of **CHÖLOX + SÖLÖS** daily with food. For best results, consume one packet of **CHÖLOX + SÖLÖS** with each of your day's three primary meals. **CHÖLOX is most effective when taken 30 minutes before or within 30 minutes following a meal.** The greatest reduction in cholesterol occurs by consuming three packets daily. There is no benefit from consuming more than four packets daily; however, additional **SÖLÖS** fiber can always be added to enhance the efficacy of this product. **CHÖLOX + SÖLÖS** is most effective when used in conjunction with a low saturated fat and low cholesterol diet, along with a high potency, comprehensive multi-vitamin-mineral supplement such as one of **ANDREW LESSMAN'S Life Rx™** formulas. **For answers to questions about the use of this or any products from Andrew Lessman's ProCAPS LABORATORIES call 800.800.1200.**

NOTICE This product contains natural fiber and should be consumed with a full glass of water. If consumed without adequate liquid a high fiber product can cause choking and should not be consumed if you have difficulty swallowing. If you feel unexpected abdominal discomfort when using a fiber product, discontinue its use and consult a physician. As with any grain product, inhaled or ingested Psyllium may cause allergic reactions in some individuals. If you are taking prescription medicine by mouth, do not consume at the same time as any fiber product.

THE PERFECT PACKET.

The Perma-Fresh Purple Packet. The Only Packet Worth of Our 100% Pure Products.

Our Purple Packet is our most advanced Perma-Fresh Packet, offering you even more perfectly protected product under all conditions. To retain potency, vitamins must be protected from light, moisture and oxygen and the clear packets found with typical vitamins fail miserably to do so. Our newly developed Purple Packets are constructed from multiple layers of specialized materials to safeguard our vitamins from damaging light, moisture and oxygen. For decades, our Perma-Fresh Packet has set the standard for vitamin protection and today, our Purple Packet takes the quality of our products to unimaginable levels, giving your investment in your health the protection it deserves.

CHÖLOX + SÖLÖS is specifically formulated to safely and naturally lower Total and LDL Cholesterol using two natural active ingredients that are government approved to lower cholesterol. The active ingredients in both **CHÖLOX** and **SÖLÖS** are supported by decades of extensive clinical studies, which have unequivocally proven their ability to support heart health by safely lowering Total Cholesterol, as well as the "bad" LDL Cholesterol. The research on **CHÖLOX** is so convincing that its active ingredient is the first natural ingredient actually approved by the US Food and Drug Administration (FDA) to lower your Total and LDL Cholesterol. By adding **SÖLÖS** to **CHÖLOX** we increase its cholesterol-lowering power with an ingredient that is supported by clinical studies going back over 50 years. The combination of **CHÖLOX** and **SÖLÖS** delivers heart health and cholesterol-lowering benefits far greater than either can provide on their own.

CHÖLOX + SÖLÖS is not a drug and has no side effects. **CHÖLOX + SÖLÖS** provides a 100% safe and natural means of lowering cholesterol that is entirely derived from edible plants. **CHÖLOX** is our specially balanced blend of plant sterols, while **SÖLÖS** is our ultra-concentrated polyose fiber derived from U.S.P. Psyllium Seed Husk. Both of these active ingredients have been an important part of healthy vegetarian diets for centuries and in recent decades have been included in nutritional supplements for their health benefits. Beyond these centuries of safely realized health benefits, both of the active ingredients in **CHÖLOX + SÖLÖS** are now FDA approved to support heart health by lowering Total and LDL Cholesterol. In fact, according to the US Food and Drug Administration, consuming at least 400 mg per serving of **CHÖLOX** twice daily with meals for a daily total intake of at least 800 mg of **CHÖLOX**, as part of a diet low in saturated fat and cholesterol, may reduce the risk of heart disease. One packet of **CHÖLOX + SÖLÖS** provides 800 mg of this FDA-approved active ingredient. To further enhance the proven cholesterol-lowering properties of **CHÖLOX**, we have added **SÖLÖS**, our all-natural, 100% pure, soluble polyose fiber from micro-granulated U.S.P. Pure Psyllium Husk. Dietary fiber is generally considered the most deficient and overlooked component in the American diet, which is unfortunate since it is well established that dietary fiber can naturally support heart health by safely reducing Total and LDL Cholesterol.

Nowadays, heart health seems to be synonymous with lower cholesterol and as a result, millions of Americans are taking cholesterol-lowering "statin" drugs, which come with a very long list of dangerous side effects. If you and your physician would prefer a clinically proven, safe and natural method for achieving healthy cholesterol levels that contains two FDA approved active ingredients, then **CHÖLOX + SÖLÖS** is the perfect choice. When used in conjunction with the appropriate diet, **CHÖLOX + SÖLÖS** can reduce or even eliminate the need for cholesterol-lowering "statin" drugs by delivering reductions in cholesterol previously only thought to be achievable with drugs. Of course, partner with your physician to determine how **CHÖLOX + SÖLÖS** can best accomplish your cholesterol and "statin" drug reduction goals.

The Western diet tends to increase our cholesterol levels and clinical studies have consistently proven that including the FDA-approved active ingredients from **CHÖLOX + SÖLÖS** in your diet can help to lower Total and LDL Cholesterol levels, providing a safe and easy way to help reduce your risk of heart disease. Despite the powerful, proven benefits of **CHÖLOX + SÖLÖS**, it is important to never underestimate the profound and long-term benefits of a healthy diet and active lifestyle. By adding **CHÖLOX + SÖLÖS** to such a diet and active lifestyle, you and your doctor are assured of getting the very best results from your efforts. Lastly, despite **CHÖLOX**'s proven effectiveness, it should never provide an excuse to ignore one's diet. In fact, **CHÖLOX + SÖLÖS** works best when taken with meals that contain less "bad" hydrogenated and saturated fat and cholesterol, and when you try to avoid simple sugars or convertible carbohydrates, such as potatoes, pasta, rice and bread.

This statement has not been evaluated by the Food and Drug Administration. This product is not intended to diagnose, treat, cure or prevent any disease.
