360 Easy-to-Swallow Capsules

Andrew Lessman's BERRY ANTI-OXIDANTS is a combination of healthy fruits that focuses on some of Mother Nature's most powerful, natural, anti-oxidant containing berries. It is well established that fruits, particularly bright and rich-colored berries, deliver a wide variety of powerful anti-oxidants called polyphenols, with each fruit contributing its own unique blend of these beneficial, natural phytochemicals. **Berry Anti-Oxidants** combines the beneficial anti-oxidant properties from 15 of the most popular and well-researched berry and fruit extracts and concentrates to provide a diverse and broad spectrum of powerful anti-oxidant protection. The anthocyanins in our special **Bilberry** extract blend help maintain the health of the macular tissues and support night vision, our distinctive 17 to 1 **Cranberry** concentrate contains some of the highest levels of anti-oxidant anthocyanins, while also supporting the health of the urinary tract, and the high levels of proanthocyanidins in **Grape Seed** and **Grape Skin** and polyphenols in **Apple** are well-known for their cardiovascular benefits. **Berry Anti-Oxidants** delivers the powerful anti-oxidant benefits of extracts and concentrates from richly-colored **Blackberries, Black Currant Berries, Elderberries, Mulberries, Raspberries, Strawberries, Chokeberries, Pomegranate** and our unique **Blueberry** and **Cherry** blends. These wonderful, healthy creations of Mother Nature owe their anti-oxidant properties to the deep, rich colors of their skins and pulp, since it is the same phytochemicals that cause these rich, colorful pigments that also account for the exceptional anti-oxidant power of these remarkable berry fruits. We also include **Quercetin** because of its exceptionally high ORAC value (extremely powerful anti-oxidant) and its well-established role as an especially beneficial molecule present in the healthiest fruits and berries. All of the ingredients in **Berry**

Anti-Oxidants are either standardized extracts or concentrates, so you can be assured of the high levels of these powerful anti-oxidants. Given our modern diet, it is nice to know that **Berry Anti-Oxidants** delivers these often hard to find and infrequently consumed berries to make it simple and easy to enjoy the benefits of "fruits full of anti-oxidants" everyday.
