4 MG ZEAXANTHIN • 8 MG LUTEIN

ULTIMATE EYE SUPPORT®

BILBERRY • BLUEBERRY • BLACKBERRY • ELDERBERRY
PLUS GREEN TEA • GRAPE SEED • QUERCETIN

360 Easy-to-Swallow Capsules

Andrew Lessman's ULTIMATE EYE SUPPORT contains the most beneficial phytonutrients and anti-oxidants necessary to support healthy vision and the delicate tissues of the eye. It contains high levels of the most important nutrients to benefit healthy vision, including exceptional levels of Lutein, Zeaxanthin and Bilberry. Lutein and Zeaxanthin are powerful, naturally occurring anti-oxidants that are concentrated throughout the tissues of the eye and are most highly concentrated in the lens and macular region of the retina. **Ultimate Eye Support** provides 8 milligrams of Lutein, which is dozens of times more than most leading multivitamins. It also contains 4 milligrams of Zeaxanthin, which may be even more important than Lutein for eye health, but which is often ignored by most leading multivitamins and is only found in smaller amounts in most other eye health formulas. Lutein and Zeaxanthin together comprise Mother Nature's most powerful one-two combination, protecting the lens and macular region of the retina from light-induced oxidative damage. These two vital anti-oxidants help protect the lens and macula from UV radiation, light-induced damage or other oxidative assaults. Lutein and Zeaxanthin cannot be produced by the body, so their protective benefits only come from food or supplements. Given the low levels of Lutein and Zeaxanthin in the American diet, supplementation has become an important consideration. **Ultimate Eye Support** also contains our special high potency blend of standardized extracts of Bilberry, Blueberry, Blackberry and Elderberry. These deep purple berries contain powerful anti-oxidants called Anthocyanins that have been shown to help support the regeneration of the visual purple portion of the retina, which is vital for optimum night vision. Because of the importance of healthy circulation and anti-oxidant protection to the eye, we also include the research proven benefits of Quercetin, Green Tea, Grape Seed and Citrus Bioflavonoids, along with Vitamin C, Vitamin E and more, making **Ultimate Eye Support** a truly unique and comprehensive formula specifically designed to help protect the fragile cells of the retina, macula, lens and other delicate eye tissues from a lifetime of oxidation.

Always Wear UV-Protective Sunglasses Outdoors.
