

**SUGGESTED USE** For fat-burning support throughout the day, consume one or more capsules daily as needed or as directed by a health care professional. As with any weight-loss product, this formula is intended for use with a sensible program of diet and exercise. This product is most effective when used in conjunction with a high potency, comprehensive multi-vitamin-mineral supplement such as one of **ANDREW LESSMAN'S Life Rx™** formulas. **For answers to questions about the use of this product call 800.800.1200.**

**UNSURPASSED.**  
Purity. Quality. Integrity. Effectiveness.

# CARNISLIM™ -250-

250MG ACTIVE CARNITINE  
STIMULANT-FREE

360 Easy-to-Swallow Capsules

**Andrew Lessman's CARNISLIM-250** is designed as a healthy, natural means of supporting fat-burning metabolism. It contains no stimulants and does not contain the potentially dangerous Ephedrine-containing herb, Ma Huang. CarniSlim-250 provides high levels of Carnitine (250 mg) per capsule, which is absolutely essential for ALL fat metabolism to take place in your body. Not surprisingly, Carnitine is found in the highest concentrations in those body tissues where fat and energy metabolism occurs at the highest levels. Over 98% of the body's Carnitine reserves are found in the muscles and the heart, where it transports ALL fat to the location where it can be burned to produce energy. In addition to its role in all fat-burning metabolism and energy production, research has shown that Carnitine is also beneficial in supporting heart health. CarniSlim-250 also includes Lysine and Vitamin C to further support your body's internal production of vital Carnitine, as well as branched chain amino acids because of their role in preserving lean muscle tissue during periods of exercise. CarniSlim-250 also provides the B-Complex vitamins because of their essential role in fat metabolism and energy production. The sacrifices we make when attempting to lose weight deserve the best results and CarniSlim-250 is designed to safely and naturally deliver the critical nutrients necessary to help maximize your fat-burning potential.
