SUGGESTED USE: Consume the contents of two packets daily (8 capsules per packet) with food – preferably at the morning and evening meals. Because this product is non-acidic and pH balanced, you can feel comfortable taking all eight capsules in a packet at one time with a meal; however, for more sensitive stomachs, simply divide the contents of your two packet daily supply for consumption with food, meals or significant snacks throughout the day.

Andrew Lessman's ULTIMATE LIFE Rx and his **FOUNDER'S LIFE Rx** represent the pinnacle of the **Life Rx** family of formulas. You hold in your hands the most comprehensive and unique formula of its kind. It is worth taking a look at the Supplement Facts panel to your right to appreciate the unique composition and potency of this remarkable formula. Plus, not only does it contain an unparalleled list of ingredients (more than fifty) at their research-required potencies, but it is manufactured to be 100% pure, containing only the vitamins, minerals, carotenoids and other nutrients listed on the label and *no manufacturing additives of any kind*. **Ultimate Life Rx** is also produced entirely with solar energy making it not just healthy for your body, but also healthy for our planet. **Ultimate Life Rx** was the first formula of its kind that almost 30 years ago revolutionized multivitamins by combining all the benefits of our ultra-high potency, vitamin-mineral-carotenoid anti-oxidant formula with those of our most popular high potency separate products, such as our **Ultimate Gamma Vitamin E**, **Essential Omega-3** oils from Fish Oils and Flaxseed Oil, **Glucosamine Sulfate**, **Chondroitin Sulfate**, **Biotin**, **Lutein**, **Lycopene**, **Astaxanthin**, **Coenzyme Q-10**, **TruQ10**, **Alpha Lipic Acid**, **Diosmin**, **Phosphatidyl Serine** and many more. **Ultimate Life Rx** eliminates the inconvenience of numerous separate formulas and provides these hard-to-find ingredients at a fraction of their separate purchase prices. **Ultimate Life Rx** comes as an ultra-fine powder in small, soft, easy-to-swallow capsules that, despite its high potency, is guaranteed to be gentle even to the most sensitive stomach. **Ultimate Life Rx** is designed for those who seek something more than an ordinary vitamin by delivering all the benefits desired from a high potency multi-vitamin-mineral formula, along with the most popular separate products without any of the stomach upset, inconvenience and other problems associated with their use.

Ultimate Life Rx offers purity, technology and a comprehensive list of ingredients not available from any other product at any price. **Ultimate Life Rx** delivers 58 nutrients, including high levels of all essential vitamins and minerals, plus high potencies of carotenoids, phytonutrients and a multitude of natural anti-oxidants. **Ultimate Life Rx** is more than an ordinary multivitamin providing separate formula levels of all key nutrients, including 2,000 IU of **Vitamin D** along with exceptional levels of the B-Complex vitamins (50 mg of **B1**, **B2**, **B3**, **B5** and **B6**), 3,000 mcg of **Biotin**, 500 mcg of **B-12** and 800 mcg of **Folic Acid**, plus 2,000 mcg of **Vitamin C** from non-acidic Calcium Ascorbate and Ascorbyl Palmitate, along with the powerful anti-oxidant protection of a broad spectrum of carotenoids, such as **Alpha-Carotene**, **Beta-Carotene**, **Lutein** (8,000 mcg), **Lycopene** (8,000 mcg), **Zeaxanthin** (4,000 mcg), **Astaxanthin** (2,000 mcg) and more. Unlike typical one-pill-per-day multivitamins that can never deliver the nutrient levels you truly require in a single tablet, **Ultimate Life Rx** provides an exceptionally comprehensive and high potency list of essential vitamins, minerals and carotenoids that would normally require you to purchase a dozen separate products to equal its potency. **Ultimate Life Rx** goes even further offering a wide array of separate, specialty ingredients that are discussed below that are not all available in any other multivitamin product at any potency level or at any price. In short, no multivitamin respects the scientific literature and your needs better than **Ultimate Life Rx**.

Our **ULTIMATE GAMMA VITAMIN E** formula distinguishes **Ultimate Life Rx** from every other multivitamin in the world delivering a balanced blend of Mother Nature's preferred forms of **Vitamin E** rather than the single, inferior form (Alpha Tocopherol) found in typical multivitamins. Sadly, the **Vitamin E** in virtually all multivitamins comes exclusively as the less beneficial Alpha Tocopherol form. **Ultimate Life Rx** is totally unique providing an ultra-high potency blend (1,200 mg of Total Tocopherols) of all four of the most important forms of natural **Vitamin E** (Gamma, Beta, Delta and Alpha), but focusing on the all important **Gamma Tocopherol** (800 mg). Experts agree that **Vitamin E** is the most protective anti-oxidant vitamin and that by far the most protective form of **Vitamin E** is **Gamma Tocopherol**. Unfortunately, virtually all other multivitamins contain only the less protective Alpha Tocopherol ignoring the research and the benefits provided by the more beneficial and protective **Gamma Tocopherol**.

Ultimate Life Rx provides **COENZYME Q-10**, **TruQ10** and **ALPHA LIPOIC ACID** at levels that can only be found in the most expensive, high potency separate formulas. **CoQ10** and **TruQ10** are our most popular separate nutrients as a result of their critical role in all energy production and as unsurpassed anti-oxidants. As a result, and not surprisingly, more than 20 years ago, **CoQ10** was the first separate ingredient we chose to add to our multivitamins. **Ultimate Life Rx** provides 270 mg of **CoQ10** and 30 mg of our new and exclusive **TruQ10**. Together these two molecules offer both natural forms of **CoQ10**, and our new **TruQ10** is scientifically accepted as the actual "working" form of **CoQ10** in the body. **CoQ10** and **TruQ10** are both present at their highest concentrations in the "hardest working" organs in the body (heart, brain, liver and kidneys) and adequate levels are essential for these vital organs to function optimally. **Alpha Lipic Acid (ALA)** is added to **Ultimate Life Rx** because of its complementary anti-oxidant activity with **CoQ10** and its property of being both water and fat soluble, which gives it the unique ability to go everywhere in your body, which is why it is referred to as the "Universal Anti-Oxidant". Our bodies' levels of **CoQ10**, **TruQ10** and **ALA** all decline with

age, stress and the use of certain medicines. Since the ability of our body to produce energy and protect itself from oxidation are the defining elements of good health, no modern multivitamin is complete without the addition of **Coenzyme Q-10**, **TruQ10** and **Alpha Lipic Acid**.

Our **ESSENTIAL OMEGA-3** formula is added to **Ultimate Life Rx** because of the vital role the **Omega-3** oils play in heart, brain, eye and circulatory health. It delivers a uniquely balanced, contaminant-free blend of the **Essential Omega-3** oils from both Fish Oil and Flaxseed Oil – without any fishy aftertaste. Research has consistently shown that diets rich in these **Omega-3** oils are associated with superior heart, brain, eye and circulatory health. Since the **Omega-3** oils cannot be produced by the body, their benefits can only be achieved by daily consumption either by diet or supplementation. Sadly, the American diet is highly deficient in these essential oils making supplementation the only viable option. To deliver the greatest benefits, our **Essential Omega-3** offers higher concentrations of both **Docosahexaenoic Acid (DHA)** and **Eicosapentaenoic Acid (EPA)**. And while most **Omega-3** formulas provide lower levels of eye and brain-supportive **DHA**, we provide extra **DHA** balancing it with **EPA**. The **Omega-3** oils from fish have long been recognized for their remarkable benefits, but they are equally well known for their unpleasant aftertaste and potential contaminants; however, our **Omega-3** oils allow you to enjoy all the benefits of Fish Oils without any fishy aftertaste, mercury or contaminants. Unlike most **Omega-3** formulas, we do not ignore Flaxseed Oil as an exceptional source of the third, plant-based **Omega-3** oil – **Alpha Linolenic Acid**, making it the most complete and problem-free **Omega-3** formula in the world.

Virtually all multivitamins ignore the importance of key carotenoid anti-oxidants because of their expense. **Ultimate Life Rx** on the other hand provides levels and forms of these critical protective nutrients that are only available in extremely costly separate formulas. The amounts of **Lycopene**, **Lutein**, **Zeaxanthin** and **Astaxanthin** found in **Ultimate Life Rx** are not available in any other multivitamin at any price. Recently, multivitamins have begun to add token amounts of **Lutein** and **Lycopene** to their products, but **Ultimate Life Rx** provides 32-times more **Lutein** (8,000 mcg) and more than 24-times more **Lycopene** (8,000 mcg) than the leading brands. These are the optimum levels of **Lycopene** that the research indicates as necessary for the optimal support of vital organs like the heart and prostate. Similarly, the delicate structures of the retina, macula and lens of the eye require the unparalleled protection of these higher levels of **Lutein** and even more importantly **Zeaxanthin**, which is sadly ignored by other multivitamin manufacturers. We further protect the tissues of the eyes and support night vision by including high levels of our unique **Bilberry** extract, along with **Quercetin**, **Hesperidin** and other key Flavonoids that support healthy circulation to systems and organs throughout our body. These same vital plant compounds work with **Diosmin**, the key ingredient from our **Circulation & Vein Benefits for Healthy Legs (Circa)** formula to insure that those normal, yet unpleasant, age-related changes in circulation do not take too great a toll on the hard working blood vessels of our feet, ankles and calves.

Like any multivitamin, **Ultimate Life Rx** provides the **Calcium**, **Magnesium** and most importantly the **Vitamin D** (2,000 IU) necessary to build and maintain a healthy skeleton; however, without healthy joints, a skeleton cannot function on its own. We therefore deliver full research-proven potency levels of the most important joint compounds, exclusively in their all-important Sulfate forms: **Glucosamine Sulfate** (1,500 mg) and **Chondroitin Sulfate** (1,200 mg). Joint tissue is composed of these vital compounds and they are totally unavailable even from the healthiest diet. Given a lifetime of wear and tear on our joints, it is only common sense to supplement these vital raw materials. We also include our exclusive **Soluble Organic Silicon** to ensure the greatest benefits for the elasticity of our joints, skin and circulatory tissues.

Ultimate Life Rx is also a pleasure to use, since it does not employ difficult to digest tablets and instead comes as a 100% pure, additive-free, ultra-fine powder in small, soft, easy-to-swallow capsules. These micro-granulated powders are pH balanced and non-acidic to most efficiently deliver their benefits while also being gentle even to the most sensitive stomach.
