**ALL-SOLAR
MANUFACTURING**

240 Easy-to-Swallow Capsules

Andrew Lessman's COMPLETE TOCOTRIENOLS is the most comprehensive Vitamin E formula possible delivering the full complement of all eight naturally occurring forms of Vitamin E – both the well-known Tocopherols and the hard-to-find Tocotrienols. Our **Complete Tocotrienols** contains high levels of Vitamin E as Alpha, Beta, Gamma and Delta **Tocotrienol**; as well as Alpha, Beta, Gamma and Delta **Tocopherol**. It is important to deliver all eight natural forms of Vitamin E, but it is vital they be balanced to achieve the greatest benefits possible. To accomplish this, our **Complete Tocotrienols** is uniquely balanced to focus on Gamma Tocotrienol and Gamma Tocopherol, which are the most active and protective by far. Unfortunately, most Tocopherol-based Vitamin E supplements ignore Mother Nature's blueprint by delivering Alpha Tocopherol only and absolutely no Gamma Tocopherol at all. Even more advanced Tocotrienol supplements reduce their benefits with high levels of Alpha Tocopherol. The result is that millions of Americans unknowingly use potentially useless Vitamin E supplements that ignore the research and bear no resemblance to the Vitamin E found in nature. Our **Complete Tocotrienols** is designed to be both perfectly comprehensive and ideally balanced focusing on Mother Nature's most beneficial and protective forms of Vitamin E that are not found in ordinary Vitamin E supplements. As impossible as it might seem to achieve an adequate intake of Vitamin E from foods, it is even more difficult to find a Vitamin E supplement in stores that respects Mother Nature's requirements and balance for this essential vitamin.
