

SUGGESTED USE Consume two or more capsules daily or as recommended by a health care professional. Calcium is best absorbed when you consume 500 mg of Calcium (2 capsules) or less at any one time. For best results take this product with food, preferably a complete meal. This product is most effective when used in conjunction with one of **ANDREW LESSMAN'S Life Rx™** multi-vitamin-mineral formulas. **For answers to questions about the use of this product call 800.800.1200.**

CALCIUM-MAGNESIUM INTENSIVE CARE™

GENTLE, ULTRA-SOLUBLE CALCIUM PLUS MAGNESIUM, VITAMIN D3 AND BORON

PROCAPS LABORATORIES

ALL-SOLAR MANUFACTURING

500 Easy-to-Swallow Capsules

Andrew Lessman's CALCIUM-MAGNESIUM INTENSIVE CARE is a mild all-natural formula designed to address the special requirements of virtually all individuals, particularly women, to consume extra Calcium, Magnesium, and Vitamin D3 to support bone health. This mild, easy to absorb formula is particularly important for women who have challenges with ordinary calcium tablets, but must consume Calcium and Vitamin D3 to build and maintain a strong, healthy skeleton. Calcium and Magnesium are two of the most abundant minerals on our planet, yet they are sadly lacking from our diet and equally difficult to absorb. It is also critical to remember that without Vitamin D3, which is just as scarce as Calcium, we cannot absorb and utilize what little Calcium we manage to consume. In fact, inadequate Calcium, Magnesium and Vitamin D3 intake poses a very real and substantial threat to the long-term health of our bones and bodies in this country. Making matters worse is the fact that Calcium itself is relatively insoluble and very hard to absorb from supplements, particularly those large calcium tablets. We overcome this problem by placing ultra-fine, super-soluble, powdered forms of Calcium and Magnesium into small, easy-to-swallow capsules that are guaranteed gentle even to the most sensitive stomachs. This eliminates the chalky taste, poor absorption and stomach upset that make ordinary calcium supplements so unpleasant to use. **Calcium-Magnesium Intensive Care** is designed to be an effective way of delivering the Calcium and Magnesium we so desperately need without the problems associated with ordinary supplements. Because of its ultra-fine powder and super-soluble ingredients, our **Calcium-Magnesium Intensive Care** remains mild despite delivering 500 mg of Calcium, 200 mg Magnesium, 1,000 mcg of Boron and 250 IU of Vitamin D3 in two small easy-to-swallow capsules. As we get older, the Calcium we require becomes more difficult to absorb and tolerate, but **Calcium-Magnesium Intensive Care** makes it easy to provide the Calcium, Magnesium and Vitamin D3 necessary to support the health of your skeleton while still remaining mild, even to the most sensitive stomachs.
